

# Gluten-Free Belgian Ale and Lager

Made From  
Gluten-Free  
Ingredients

Green's Beers have been brewed at De Proef Brewery in Lochristi, Belgium since 2004. Inspired by strong European beers and developed to a closely guarded secret recipe, these specialty beers are brewed with a full body, crisp taste and a refreshing flavor, losing none of the taste but all of the allergens. Green's Beers are suitable for both Vegetarian and Vegan diets, and they are brewed from gluten-free ingredients - not processed to remove gluten.

Green's Beers DO NOT contain any of the following allergens or products thereof: Gluten, Barley, Wheat, Crustaceans, Eggs, Fish, Peanuts, Soybeans, Milk, Lactose, Nuts, Celery, Mustard, Sesame seeds, Sulfur dioxide nor Sulfites. All ingredients are non-GMO.

### Green's India Pale Ale (IPA)

Tasting notes: Amber-red color; full body. Aroma is bold hops with herbal and piney notes; nutty, firmly bitter flavor with hints of caramel. OG: 1.051 IBU: 60 ABV: 6.0%

Serving Suggestions: Gluten-free pasta, rice pilaf; try with spicy Indian or Asian cuisine: high hopping levels make this a superb pairing with spicy hot entrees.

#### Gluten & Celiac Disease

Gluten is a mixture of the proteins gliadin and glutenin. Found in wheat, barley, and rye, gluten gives bread and other baked goods their characteristic elasticity and chewiness.

Celiac disease, also known as coeliac disease or gluten intolerance, is an inflammatory disorder of the small intestine that may affect as much as 1% of the population, but which is significantly under-diagnosed. People who suffer from celiac disease may not acquire all the nutrients they need from their food, because gluten disrupts the ability of their small intestine to function properly. A gluten-free diet is the only effective treatment for celiac disease.
